Save Money on Car Repairs Nationally: Join Mechanic-On-Duty™

Automotive specialists to advocate for motorists

May 1, 2009 (Toms River, NJ) – Finally motorists have a resource that can help reduce the anxiety and financial risks associated with costly auto repairs. Mechanic-on-Duty™ (MOD) has been launched as the first true advocate for motorists. MOD membership provides an array of services, all of which serve to represent the needs of the motorist when dealing with the service repair industry anywhere in North America.

As an affordable, membership-based service, MOD provides motorists with unlimited access to its in-house team of professional auto repair specialists—real time access to real people with real knowledge. Each member's own "mechanic-on-duty." MOD is not affiliated with any repair industry sources; it is not a "how to" service and is not a service repair provider. Rather, as The Motorists Advocate™, MOD approaches its involvement in each car repair with the same three goals in mind: to ensure that the proper diagnostic approach is utilized; to "audit" the repair facility's cost to repair the vehicle; and to determine if the vehicle is at the right type of repair facility given the nature of the repair.

"Once a MOD member presents their membership card to the service writer at a repair facility and asks them to call us before undertaking any work, that member's interest is being served by a collective team of professionals that can hold their own with anyone in the service repair industry. When we speak with the involved repair facility representative it will be two professionals speaking the same language. A lot of the confusion and anxiety that can overwhelm or even victimize a motorist will be gone. MOD is the first service of its kind and it gives members across the country access to an independent resource that will put their interests first. After all, it's the MOD member that's paying the bill," said Martin Conlon, the President and Founder of Mechanic-on-Duty™, LLC.

Conlon continued, "As the CEO of two auto warranty companies, I know what it's like to serve as the consumer's checkbook when it comes to costly auto repairs. This experience and expertise has been replicated in the MOD team of professionals and our know-how is available to our members. Call us as often as you like. Utilize our services as much as you need. We will be your mechanic-on-duty for less than 25 cents a day."

New members have two options when joining MOD. They can pay their membership fee monthly for just \$6.99, or \$75.50 for annual membership. Annual members are also eligible to join a nationwide 24-Hour Emergency Roadside Assistance program for an additional cost of \$49.95. MOD specialists are available Monday through Saturday from 8 a.m. to 6 p. m. (EST).

Since its founding in 2008, Mechanic-on-Duty™ has been the premier advocate for motorists when it comes to costly auto repairs. MOD does not generate any revenue from auto repair industry sources. To enroll online, visit www.mechaniconduty.com or call MOD at 1-888-690-5663.
